

Demi Lovato, HOLY FVCK

Like a serpent in a garden
I am truth and I am darkness
I'm an angel, I'm a demon
Just depends on what you're feeling

I'm the fruit that was forbidden
But don't keep my evil hidden
I'm the one she was afraid of
Now I'm what your dreams are made of

I'll show you the light with all the lights off
With all the lights off
I'll bring you to life, I'm a holy fuck
I'm a holy fuck

(Fuck)

You see me begging for permission
Let me free you from her prison
She's a novice, a beginner
I'm the sexorcist, the sinner

I can guide you, I can teach you
Honey, this is just the preview
'Cause my body's the communion
Take a bite of what I'm doing

I'll show you the light with all the lights off
With all the lights off
I'll bring you to life, I'm a holy fuck
I'm a holy fuck

(Fuck)
(Fuck)

I'll show you the light with all the lights off
With all the lights off
I'll bring you to life, I'm a holy fuck
I'm a holy fuck

(Fuck)
