

# Demi Lovato, Stars

Walkin' in, we causin' a frenzy  
Walkin' in, we causin' a  
Knock 'em all out, beat 'em like ...  
Walkin' in, we causin' a frenzy  
Walkin' in, we causin' a  
Knock 'em all out, beat 'em like ...  
We don't give a, we don't, we don't give a  
Rollin' so deep, but we ain't thirsty  
Rollin' so deep  
Talkin' trash, we keepin' it classy  
We don't give a, we don't, we don't give a

Oh when the lights go out and it all goes down  
No one even knows when tomorrow comes  
Cause we live for now, you and I

And we really don't need the light  
Cause we're stars tonight  
Oh, yeah, we really don't need the light  
Cause we're stars tonight  
Oh and we don't really need the light  
Cause we're stars tonight  
Oh, yeah, we don't really need the light  
Cause we're stars...

Workin' out, weed got me all crazy  
Workin' out, weed got me all...  
Dancin' nerdy, get a little sleazy  
We don't give a, we don't, we don't give a  
Get 'em hyped up, get 'em all talking  
Get 'em all...  
Looking at you, feelin' so fancy  
We don't give a, we don't, we don't give a

Oh when the lights go out and it all goes down  
No one even knows when tomorrow comes  
Cause we live for now, you and I

And we really don't need the light  
Cause we're stars tonight  
Oh, yeah, we really don't need the light  
Cause we're stars tonight  
Oh and we don't really need the light  
Cause we're stars tonight  
Oh, yeah, we don't really need the light  
Cause we're stars...

We're the only ones who can fight the Sun  
We're forever young and we just begun  
We're the only ones who can fight the Sun  
We're forever young and we live for now  
You and I

And we really don't need the light  
Cause we're stars tonight  
Oh, yeah, we really don't need the light  
Cause we're stars tonight  
Oh and we don't really need the light  
Cause we're stars tonight  
Oh, yeah, we don't really need the light  
Cause we're stars...
