

Demi Lovato, Still Alive (From the Original Motion

Woke up under water, throat chained at the collar
Couldn't get any farther from the daylight
Was I still dreaming, stuck to a machine or
Choking and screaming with my hands tied?

Callin' and callin' but nobody comes
Fallin' and fallin', no air in my lungs
Getting so comfortably numb
Don't know how I opened up my eyes

But I'm still alive
I don't wanna just survive
Give me something to sink all my teeth in
Eat the devil and spit out my demons
Still alive
Already died a thousand times
Went to Hell, but I'm back and I'm breathing
Make me bleed while my heart is still beating
Still alive

Sucked out the poison, drowned out the noise
'Cause I made a choice and drew a hard line
Let the fire catch until I'm back to ash
If anybody asks, I'm turning back time

Chasing the ghosts that would haunt me at night
Facing my past 'cause I'm up for the fight
Somebody turned on the light
I'm not afraid to open up my eyes

But I'm still alive
I don't wanna just survive
Give me something to sink all my teeth in
Eat the devil and spit out my demons
Still alive
Already died a thousand times
Went to Hell, but I'm back and I'm breathing
Make me bleed while my heart is still beating

Already died
Suddenly I'm

Still alive
I don't wanna just survive
Give me something to sink all my teeth in
Eat the devil and spit out my demons
Still alive
Already died a thousand times
Went to Hell, but I'm back and I'm breathing
Make me bleed while my heart is still beating
Still alive
Still alive

Still alive
