

# Demi Lovato, The Middle

Knew where I was going when you left the room  
You're the kinda guy who makes me wanna follow through, to you  
I've been trying to leave here for the longest time  
The second that I saw you I just knew I found my ride, bye

I like it (x6)

I wanna crash  
I wanna fall  
I wanna be somewhere in the middle  
Somewhere in the middle  
Of something, it's better than nothing  
I just need a little  
I just need a little  
And I don't wanna be nowhere  
Something's making me go there  
Somewhere in the middle with you

I like it (x6)

Losing my direction, that's the way it should be  
Feeling a connection when you're standing next to me  
I wanna be rolling, I just wanna be rolling with you

All of the things you say  
(I like it, I like it)  
Taking me far away  
(And I like it)

I wanna crash  
I wanna fall  
I wanna be somewhere in the middle  
Somewhere in the middle  
Of something, it's better than nothing  
I just need a little  
I just need a little  
And I don't wanna be nowhere  
Something's making me go there  
Somewhere in the middle with you

Maybe you'll save me  
You're gonna take me from this crazy  
I've been waiting  
Cause I just need a little  
I just need a little  
Somewhere in the middle with you

CRASH  
I wanna fall  
I wanna be somewhere in the middle  
Somewhere in the middle  
Of something, it's better than nothing  
I just need a little  
I just need a little  
And I don't wanna be nowhere  
Something's making me go there  
Somewhere in the middle with you

Crash, fall  
I like it, I like it  
Somewhere in the middle with you

Crash, fall  
I like it, I like it

Somewhere in the middle with you  
Middle with you
