

# Denai Moore, Blame

Blame it on love,  
What else can it be?  
Causing all this misery  
Blame it on love  
So easy to do  
No one knows it more than you

And you make my heart break  
When you take and you take  
Take from this  
Yes you take all my love, all my love  
And make hates, hates from it

There's a place in my heart  
I scratched your name  
Seeing that I'll stop  
Forever engraved, bloody

Blame it on us,  
Too young to know  
The memories stay when lovers go  
Blame on lust  
Too easy for you  
No one knows it like you do

And you make my heart break  
When you take and you take  
Take from this  
Yes you take all my love, all my love  
And make hate, hate from it

There's a place in my heart  
I scratched your name  
Seeing that I'll stop  
Forever engraved, bloody

Blame it on love /4x

Blame it on love,  
What else can it be?  
Causing all this misery  
Blame it on love  
So easy to do  
No one knows it more than you

There's a place in my heart  
I scratched your name  
Seeing that I'll stop  
Forever engraved, bloody
