

Dennis Lloyd, Wild West

what if you feel like
feel it like me

nobody knows how it feels to be like me
nobody, girl

cause I feel like I'm losing my mind
and I am losing control
but you know that I love that
and I feel like I am ready to give
and I am ready to love
and you know that you want that

I gave you my word
and I showed you my world
but you don't understand that I love that
every minute you tried is a minute you lied
and the minute you hide it baby

what if you feel like
feel it like me
