

Dennis, She's Not Coming Back

Set some thing I should not say
When die anger blinds you
From you're heart

I wanna be the man she thought I was
But I got this feeling it's hopeless

I don't blaim you for walking away
I just hope you can forgiven me
She's not coming back
She's not coming back
I held my fingers crossed
My hands of my heart
She's not coming back
She's, not coming back
This time I know I really mest it up

Why I'm must some time to stubber
When in I open my mouth to say I sorry
Hope aint got this from my father
Every time he hurth my mother

I don't blaim you for walking away
I just hope you can forgiven me
She's not coming back
She's, not coming back
I held my fingers crossed
My hands of my heart
She's not coming back
She's, not coming back
This time I know I really mest it up

Must of called you hundred times
But you never called me back
Buy now I should me realise
That you never turn turn around

She's not coming back
She's , not coming back
I held my fingers crossed
My hands of my heart
She's not coming back
She's , not coming back
This time I know I really mest it up
