Depeche Mode, New Life

I stand still stepping on the shady street And I watch that man to a stranger You think you only know me when you turn on the light Now the room is lit red danger Complicating, circulating New life, new life Operating, generating New life, new life Transition to another place All the time will pass more slowly Your features used and your shadows red Like a film I've seen now show me Complicating, circulating New life, new life Operating, generating New life, new life Spaces hidden and we're out of sight And the road just leads to nowhere Stranger in the door is the same as before So the question answers no here

Complicating, circulating

New life, new life

Operating, generating New life, new life

I stand still stepping on the shady street

And I watch that man to a stranger

You think you only know me while you turn on the light

Now the room is lit red danger
