

# Derdian, Write Your Epitaph

[Pre-Chorus:]

Hey, we came here for you  
To free our blue planet,  
To control and catch your energy  
It would be so easy  
Willing well ...  
You'll become a memory for this place  
And well exit rapidly,  
We will never come at ...  
For the planet were a remedy

[Chorus:]

Your town deserves a better faith  
You're wasting all your time  
To fight against each other,  
To fight against your rights!  
Of course we gave you every chance,  
You're wasting it tonight  
... there's no way to fight  
You will write your epitaph tonight!

Hey, we are watching you  
During days like centuries we ... come to.  
You're the planet enemies ...  
The evolution next we produce.

[Pre-Chorus:]

Hey, we came here for you  
To free our blue planet,  
To control and catch your energy  
It would be so easy  
Willing well ...  
You'll become a memory for this place  
And well exit rapidly,  
We will never come at ...  
For the planet were a remedy

[Chorus:]

Your town deserves a better faith  
You're wasting all your time  
To fight against each other,  
To fight against your rights!  
Of course we gave you every chance,  
You're wasting it tonight  
... there's no way to fight  
You will write your epitaph tonight!

You'll be so blind  
You trust the perception of...  
You'll see yourself  
A center, an end of universe!

[Chorus:]

Your town deserves a better faith  
You're wasting all your time  
To fight against each other,  
To fight against your rights!  
Of course we gave you every chance,  
You're wasting it tonight  
... there's no way to fight  
You will write your epitaph tonight!
