

# Des'ree, Caring World

Sitting down in the back of my mind  
Taking a trip on time  
Homing in on discoveries, will I ever find what's mine  
Time speeds on like a bullet train,  
sometimes leaving me behind  
Don't want life to pass me by,  
I'm gonna find my path to climb

I need a caring world, a caring world  
Will you hear me when I cry  
I need a caring world, a caring world  
Please don't leave me high and dry

He said, do yourself a favour girl  
Sit down, seek peace, set free  
Release tension and anxiety -  
you don't want living in your tree  
Talk and I will listen, I will help you if I can  
You know everything is written,  
in the palm of your right hand

I need a caring world, a caring world  
Will you catch me when I fall  
I need a caring world, a caring world  
I want it all, I want it all

Free, free, free, free
