

DeSol, Santos

All you saints come riding
offer up your guidance
Help me make my way
towards a better life
In the village they pray
to keep you smiling
To chase away the rain, the pain
that plagues us this modern day

This song goes out
to all my people
standing in la lluvia
Open the doorway
Santos
Sing Halleluia

Let me know
If you can save this crying soul

So I sing a new song
to keep up my promise
that I made to you
through my higher self
'Cause I know you listen
and I keep reaching
for you each day, the way
I bow to you my rock of faith

[Chorus]

And in my darkest hour I remember
what my grandmother said
"Call, they will listen"
So with intention I lit a candle
and watched it burn
for seven days...

[Chorus]

Oh, I've been crying
Crying for a vision of angels
