

Dev, All I Wanna Do

Staring at you al. I night
if you were to come a little closer
then I might just have to touchy my

saw you in the spotlight
the way you move
I'm hungry for a piece of you
I wanna take a big bite

you know you make me feel like
you know it's all I wanna do

don't care if you know me
taste my lips and blow me
touch your body,
you know it's all I wanna do
don't care if you know me
just shut up and show me
fuck your body,
you know it's all I wanna do

I got your attention
I can't stop my mind from thinking
about those dirty things
I shouldn't mention

I forgot to mention
fuck what kind off car you driving
boy, I only wanna see the engine

you know you make me feel like
you know it's all I wanna do

don't care if you know me
taste my lips and blow me
touch your body,
you know it's all I wanna do
don't care if you know me
just shut up and show me
fuck your body,
you know it's all I wanna do
