

# Diana Ross, Back To The Future

Every day's a new beginning  
That's what I stand for  
Since our possibilities  
In a world out of control

You're looking for a miracle  
To spray the air feel the rain  
Since you're out of control  
Married to pain

Which way forever  
Which way will I go  
Which way forever  
There's no heroes

Take me back, take me out  
Back to the future  
Back to the future  
Change your thinking  
Change your mind  
Back to the future

Close your eyes and pretend  
That you're a bird in the sky  
Turn your face to the wind  
I know you can learn to fly

Which way forever  
Which way will I go  
Which way forever  
There's no heroes

Take me back, take me out  
Back to the future  
Back to the future  
Change your thinking  
Change your mind  
Back to the future  
Back to the future

Take me back, take me out  
Back to the future  
Back to the future  
Change your thinking  
Change your mind  
Back to the future  
Back to the future

Believe you can be  
Believe that you can  
You can make a stay  
We can change the world  
I know we can

You gotta take me back, take me out  
Back to the future  
Back to the future  
Change your thinking  
Change your mind  
Back to the future  
Back to the future

Take me back, take me out  
Back to the future

Back to the future  
Change your thinking  
Change your mind  
Back to the future  
Back to the future
