

# Diana Ross, I Still Believe (Purple Disco Machine

In love, I still believe  
It's all I ever need  
The reason that I breathe  
I just can't get enough  
An old familiar friend  
Call it Heaven sent  
It never has to end  
I still believe in love  
Love  
Pulling me up  
Whenever I'm down  
Giving me the faith I lost, but now I've found  
Bringing me joy  
Giving me life  
Looking forward, I can leave my past behind  
Darling, put your hands in mine  
We're just having a good, good time  
Stepping out in a new light  
We're just having a good time (good time)  
In love, I still believe  
It's all I ever need  
It's the reason that I breathe  
I just can't get enough  
An old familiar friend  
Call it Heaven sent  
It never has to end  
I still believe in love  
Every smile  
Every road  
There's a light that guides me everywhere I go  
Through lonely nights  
It keeps me close  
It's in everything I know, I know, I know  
Darling, put your hands in mine  
We're just having a good, good time  
Stepping out in a new light  
We're just having a good time (good time)  
In love, I still believe  
It's all I ever need  
It's the reason that I breathe  
I just can't get enough  
An old familiar friend  
Call it Heaven sent  
It never has to end  
I still believe in love  
Love, oh
