

# Diesel Boy, Piosenka

Its three years gone  
still I rattle on  
This crazy world is moving fast  
Here I am  
guitar in hand  
I wonder how long this will last  
I wish you could see  
what this means to me  
It means more than I could ever say  
So I close my eyes and I think real hard  
Back to the days spent on the school yard  
and how many times I wished that this were true  
that this were true  
it makes me smile  
To the famous three  
who never believed  
I'm singing this song to you  
look at me now  
I'm so proud to be  
right here, right now  
a part of this
