

Diffuser, Only In The Movies

Shes burning out on apathy
Unsure of where she wants to be
If she could change the world i think shed rather sleep
18 and feeling out of place
Frustrated that she cant relate
Knee deep in disillusion of her mental state

(chorus)

In time you will learn to stand up on your feet
'Cause only in the movies can you replay every scene
Until it comes out clean

Move to a Lower East Side dorm
She's got no friend to call her own
Still can't get used to living far away from home
So Bored to death of being bored
Ambition seems to go ignored
Her disposition is decaying at the core

(chorus)

All things are good and some are bad
Its really what you make of it
You Re Locked inside a world that a
Planned out just for you

Shes burning out on apathy
Unsure of where she wants to be
If she could change the world i think shed rather sleep

(chorus)

Just wait some time
In time you will learn to stand up on your feet
'Cause only in the movies can you replay every scene
Until it comes out clean
