

# Digit All Love, Lick Your Enemy Right

Makers should notice,  
Your walls are falling.

I know this war  
I know this fight  
I know this fall  
And I know it's time.  
I know these words  
And i know these fight.  
I know this fall.  
And I know this time.

And I know I won't win  
And I know it's alright  
Still I'm on the right side  
And I know these words  
And I know it's fine  
but I'm on the right side of the sky.

And I may not feel a thing until I crash all,  
but please don't let me ruin myself.

Makers should notice.
