

# Dio, Night People

Do you like the dark  
Do you like the way it moves  
Do you come alive when neon  
Kills the sun

Are you hypnotized  
Part of the illusion  
Oh, see how they run

It's the mystery  
Poetry and passion  
Innocence and fashion  
Revolution  
Evolution ways

Night people

Are you satisfied  
With the lessons that you're learning  
Is the fire really burning  
Do you know

Hey dream child  
Promises are spoken  
And promises are broken  
Electric eyes that never let you  
See them in the day

Night people  
Night people

Do you like the dark  
Do you like the way it moves  
Do you come alive when neon  
Kills the sunshine

Are you hypnotized  
Innocence and fashion  
Promises and passion  
Evolution  
Revolution ways  
And everybody stays

Night people  
Night people, yeah!

Do you like the dark  
Do you like the way it moves  
Are you hypnotized  
Paralyzed  
Revolution  
Hey dream child  
You got electric eyes  
Hey dream child!
