

Dizzee Rascal, Cut'em Off

[Chorus]

Socialize in a crucial sitation (and negotiate)
I cut em off [x2]
Review the situation take part take over [x4]
My name is Rasket listen to my flow
I socialize in Hackney or Bow
I wear my trousers ridiculously low
I love females, money and creps
Im kind of street wise I think that you should know
Your not a bad boy your puttin' on a show
Your talkin'bout creepin' up on Rusko
So keep creep crawlin' cus' im takin' big up steps
My name is Rasket listen to my slang
I socialize with the crew and the gang
Roll utes on the street is where I hang
I'll make you collapse leave gaps in your face
Your in your neighborhood thinkin' that your nang (oh please)
Got your people thinkin' that I'm dang (oh please)
But if you try it ill make a ratchett bang
You could never outplay me im an ace
Im not a smoker but I blaze alot
Sit around puffin' waste my days alot
But I shouldnt waste time couse I aint got alot
Im' just lazy
Im not a ratchett but I bang alot
Got a couple beanies that I slam alot
I make em' happy with my fingers and my hand alot (finger)
Im just crazy

[Chorus]

Socialize and negotiate
I cut em off [x2]
Review the situation take part take over [x4]
There you go again talkin' like a div
Like I cant find out where you live
Take off your latch I dont even need a ratch
My butterfly leave you lookin like a sieve
Met bad boys from every postcode
You could never talk to me about road
Stop dreamin' im your worst nightmare
Im freddy Krueger make the luger explode
There you go again talkin' like a star
Like I cant find out where you are
Kick off your door I ain't got a 4x4
I'll have to settle for a long metal bar
I've met bad boys from every ruff ends
You could never talk to me about skenz (click click)
Talk tuff but you aint sayin' much
I'll chop you up and share you out between your friends
Now some love me some do the opposite
If you feel to move to me please get on with it
Dont know why you feel the need to talk to birds
But talk is dangerous be careful with your words
But remember this I am you
So if you think your real do what you gotta do
On a level your just challengin' yourself
If your feelin' brave go ahead and burn yourself

[Chorus]

Socialize and negotiate
I cut em off [x2]
Review the situation take part take over [x4]
I cut em off, I cut em off
Review the situation take part and take over
