

# DIZZMA, GRAVITY

Gravity,

Gravity

Help me  
I'm craving all Your love when  
I'm all alone, all alone

I've made up my mind  
I'm carried all in  
For too long

Won't You take the lead  
It's only what I need  
And days we just can't get enough of,  
Chasing all the dreams

You're like a gravity  
You pull me and I go  
If You can make me stay  
I can't just let you go  
Out of this world  
Your place  
I wish i could control  
but you know but you know that for ya  
I'd lose and give it all

Gravity,  
You pull me and I go,  
Gravity,  
I can't just let you go  
Gravity,  
I wish i could control  
but you know but you know that for ya  
I'd lose and give it all

Help me  
To make it last forever  
Cause it's been a long time

Since You came around  
And made me better  
I wanna feel it all, so

Won't You take the lead  
It's only what I need  
And days we just can't get enough of,  
Chasing all the dreams

We're running back the time  
When two souls intertwine  
I'm holding on to memories  
When You're a piece of mine

You're like a gravity  
You pull me and I go  
If You can make me stay  
I can't just let you go  
Out of this world  
Your place  
I wish i could control  
But you know but you know that for ya  
I'd lose and give it all

Gravity,

Gravity,  
I can't just let you go,

Gravity,

But you know but you know that for ya  
i'd lose and give it all
