

Dj Serenity and Da Flow, Fuel To Fire

In a relationship
We've got to share what we've got of it
If we're there at this secret share
We look you were sending home again
Something is changed
Something is right
Something you told me was a lie last night
My thoughts drive me crazy
I think I'm gonna cry
But tears won't help then just a fuel to the fire
Something is changed
Something is right
Something you told me was a lie last night
My thoughts drive me crazy
I think I'm gonna cry
But tears won't help they're just a fuel to the fire
If we were to try again
Pick this all off the grounds and then
Try to mend our race again
Find a new way for love again
Something is changed
Something is right
Something you told me was a lie last night
My thoughts drive me crazy
I think I'm gonna cry
But tears won't help they're just a fuel to the fire
Something is changed
Something is right
Something you told me was a lie last night
My thoughts drive me crazy
I think I'm gonna cry
But tears won't help they're just a fuel to the fire
