Doda, My Melody

I got a tattoo on my brain
I got addicted to it
You are a sad song in my head
But I won't forget what just happened

If you hurt me once
I will break you twice
Give you one last dance
I can wear your favourite dress
But the blood is on your hands, yeah

I got a one, two, three, my melody
I can write you up, the chemistry
Crossed the line in me, lost in sanity
'Cause your love
Is my enemy

I got a one, two, three, my melody
I can write you up, the chemistry
Crossed the line in me, lost in sanity
'Cause your love
Is my enemy (Yeah)

We got a million memories
But now I need just one, yeah
I'm giving you red light, remember me
'Cause my love
Is your enemy, yeah

If you hurt me once
I will break you twice
Give you one last dance
I can wear your favourite dress
But the blood is on your hands, yeah

I got a one, two, three, my melody
I can write you up, the chemistry
Crossed the line in me, lost in sanity
'Cause your love
Is my enemy

I got a one, two, three, my melody
I can write you up, the chemistry
Crossed the line in me, lost in sanity
'Cause your love
Is my enemy (Yeah)

'Cause your love
Is my enemy (Yeah)
