## Doda, Waterfalls

I didn't have a chance to see this coming Going through the motions on my own Somewhere in the darkness Oh, I saw you Now I've got a feeling I used to know

You were alone Night without stars Cold as a stone Just as I was So hold Hold on to love I don't need a lie Just don't let this die

I'm falling like a waterfall now Take me as I am I just want a love that's real now So don't you let me down Don't you let me down, yeah

There's something 'bout silence That hits with a violence So work with me let's drown it out When I first met you You lit up the darkness So bright So bright

We're not alone At night without stars Home of our own Just as it was So hold Hold on to love I don't need a lie Just don't let this die

I'm falling like a waterfall now Take me as I am I just want a love that's real now So don't you let me down Don't you let me down, yeah

I'm falling like a waterfall now Take me as I am I just want a love that's real now So don't you let me down Don't you let me down, yeah
