

# Dog Eat Dog, In The Doghouse

You don't have to be the person actin' like the fool  
About time you learned you somethin', so go to school  
You never knew you had the answer but that's a lie  
Livin' by your intuition and that ain't right

Face first  
In the doghouse  
Face first

Would not could not should not, but you did  
Don't even try to cross me you snot nosed kid  
This fight ain't half way over, you soft skin clown  
That ill pill you're selling just wont wash down

I see what you do to others, and what you've done  
I can't help but think and wonder when my time will come  
So when you go for yours, you better knock me out  
You come back to my neighborhood and I'll bust your crown
