(hello)

(here we go)

Still down with the fat joints  
And only getting bigger  
Respect to my man JMJ ith the zigga  
Dog eat dog what we are to say  
we can hit this jam in the old school way  
So rock you body and roll your mind  
Hip-Hop is the spirit if you know the time  
Are we Glowing? (yeah)  
Spot blowing (you know it)  
By the smell of the skunk  
lits the funk we flowing  
So split the blunt  
reach for the sack  
Ease of your mind  
Never look back  
Inhale deeply  
Now pass it around  
Come on every body  
Lets all get down

CHORUS: x2  
No fronts, No tricks  
No soapbox politics  
No guns, just Blunts  
We kick this just for fun

I'm here to introduce a member to you  
a life time member of the dog eat dog crew  
Its me JC, i'm the AKG  
And can nobody rock the mic like me  
All around the world we do our thing  
and if your wack step back  
'coz were down with the king  
So drop that bass, smack with the drum  
now heavy on the horn, now it weighs a ton

Repeat Chorus

All right kid what you want you get  
many different styles that we present  
time to show and prove if your in the groove  
don't sleep as we can make a move
