

# Dog Eat Dog, World Keeps Spinnin'

Just because the earth is round, don't mean you've got the right  
To treat it like it was a basketball.  
Pass it to the left, shoot it from the right  
Destroying it is gonna take it's toll...

Oh no, I don't feel so good.  
The world keeps spinning, here comes lunch.

Just because the earth is round, don't mean you got the right  
To kick it like it was a soccer ball.  
Kick it to the ground, pass it to the sky  
Destroying it is gonna take it's toll...

Oh no, I don't feel so good.  
The world keeps spinning, here comes lunch.

All the dumping and spilling and burning and killing that's going on all over the globe  
How will the dumping and spilling and burning and killing affect us? Nobody knows.  
Some wreck the state of the earth, some cry for the sky  
It don't make a difference, we're the ones who are gonna die.

Oh no, I don't feel so good.  
The world keeps spinning...
