No, you hang up, you hang up

[Verse 1]

Somethin' different about you

Love it when he hit and smack too

Baby, let me lick on your tattoos

That's true that I like PDA, take it to a seedy place

Suck a little dick in the bathroom

"Who that man with the big strong hands

On her ass in the club with the paps?" Baby, that's you

Front-seat chillin' with the window down

I be ten toes down on the dash gettin' fast food

Hope you can handle the heat, put your name in the streets

Get used to my fans lookin' at you

Fuck what they heard, I don't fuck with them birds

I'm a mean kitty, don't get stabbed with the rat tooth

Boys be mad that I don't fuck incels

Girls hate too, gun to their pigtail

I love you, I wanna big chill

Boy don't trip, I'll split a big bill

Take you 'round the world, they don't have to understand

Rub it in their face, put a rock on her hand

[Interlude]

Baby, can you call me back? I miss you

It's so lonely in my mansion
