

# Dolly Parton, Before You Make Up Your Mind

Before you make up your mind to leave me  
Before you make up your mind to walk out the door  
Before you tell me that it's all over  
Let me say what I have to say it won't take me all day  
And if you still wanna leave don't stay for I won't try to hold you anymore  
Does she really love you way that I love you  
Does she treat you right even when you've done wrong  
If she's woman enough to forgive you way that I'm willing to  
If she ain't then don't go for I still love you so we all make mistakes I know  
Give these thoughts a little time before you make up your mind

Does she really love you way that I love you  
Will she treat you right even when you do wrong  
If she's woman enough to forgive you way that I'm willing to  
If she ain't then don't go for I still love you so we all make mistakes I know  
Give these thoughts a little time before you make up your mind  
Give these thoughts a little time before you make up your mind
