

# Dolly Parton, How Does It Feel

(Dolly Parton)

I know that you're out there  
Knowing that there's someone out here thinkin' of you  
In your heart and in your mind  
I know there is no doubt that someone loves you  
And I know that you know  
That I'll be waiting here when you have need of me  
And when the world has chained you down  
I know you know my love will set you free  
How does it feel to know that someone loves you  
How does it feel to know that someone's always thinkin' of you  
Oh and how does it feel to know that someone puts no one above you  
How does it feel to know that someone loves you, someone loves you

I have come to know and love you  
Like I've never known or loved another  
Words have not been made  
That could describe these feelings we have for each other  
And I would go to any length  
To let you know at all times that I care  
'Cause I want you to know  
That any time you reach for me you'll find me there

How does it feel to know that someone loves you  
How does it feel to know that someone's always thinkin' of you  
Oh and how does it feel to know that someone puts no one above you  
How does it feel to know that someone loves you, someone loves you

Someone loves you, how does it feel to know it  
Someone loves you, how does it feel to know that someone  
Loves you, someone loves you, how does it feel, how does it feel  
How does it feel to know that someone loves you  
Somebody loves you, how does it feel, how does it feel  
How does it feel to know that someone loves you  
Someone loves you, somebody loves you  
Somebody loves you, how does it feel to know it  
Somebody loves you
