

Dolly Parton, I'll Never Forget

Sweeter than honey as soft as a sigh gentle as snowflakes but warm as July
This is the way I remember your kiss if I live forever I'll never forget
Misty as morning as blue as the sky reflections of heaven in your loving eyes
Eyes that said more than your words ever did and if I live forever I'll never forget

If I live forever I'll never forget it's you that I wanted to share my life with
Do I still love you the answer is yes if I live forever I'll never forget
Two loving arms that I felt welcome in arms that I'd run to again and again
How do you erase sweet mem'ries you miss if I live forever I'll never forget
Sad circumstances that stood between us wouldn't let us share a precious sweet love

Do you remember do you feel like this if I live forever I'll never forget
If I live forever...
Do you remember do you feel like this if I live forever I'll never forget
