

Dolly Parton, I'll Remember You As Mine

(I'll remember you forever I'll remember you as mine)
Let's pretend tonight that it's the same as always
Let's go back just the little ways in time
Let's fill this one last night with lasting memories
Let's me remember you as mine
Hold me close pretending it's still me and you love
And let me be the only thought that's on your mind
Let's pretend that you don't really have a new love
Oh no let me remember you as mine
I remember you as sunshine that gave lights to my world
I remember you as gentle as this night
I remember you as heaven that let me hold a little while
I remember you whether I remember you as mine
When you leave my arms then I will be alone love
Hold me close love me gently one last time
I won't ever picture you with no one else love no I remember you as mine
I remember you as sunshine...
As mine as mine
