

# Dolly Parton, Laugh The Years Away

A corporation owns the factory I work in  
Someone else owns the house we call our home  
The bank owns the car we drive around  
And we've got something we can call our own

We've got love happiness surrounds us  
And we thank the Lord for every single day  
And with love we'll always have each other  
And together we can laugh the years away  
[ steel ]

We're so thankful for our lovely children  
And I work hard to keep new shoes upon their feet  
But sometimes they've not too much on our table  
But we've got something that's mighty hard to feed

We've got love happiness surrounds us...  
We've got love happiness surrounds us...
