

# Dolly Parton, Let's Live For Tonight

Let's live for tonight dear it's better that way  
Tomorrow we might be apart  
Let's live for tonight dear let love have its way  
For tomorrow we could have two broken hearts

Let's cast all our worries and heartaches aside  
Forget what the future might hold  
Let's live for tonight dear in a world all our own  
For tomorrow we may have to be alone

[ fiddle ]

Let's live for tonight dear and try to pretend  
That we will never be alone  
No matter what happened this night will be ours  
What tomorrow brings nobody ever knows  
For tomorrow we may have to be alone
