

# Dolly Parton, Love's All Over

I can see it on your face it's over it's all over it's all over me and you  
Love came down like the rains from heaven  
Love's all over us dripping like the morning dew  
We can't hide it anymore you can't hide real love  
When it's all over all over me and you  
And it's wonderful to know it's all over love sweet love it's all over me and you

Once we worried what folks would think if they only knew  
Just how much love there was between me and you  
Oh but it's no secret anymore it's all out in plain view  
And love's all over us love's all over me and you  
We can't hide it anymore...
