## Dolly Parton, Think About Love

(Dolly Parton)

I can't forget you Ever since the moment that I met you You've been on my mind And I need to somehow let you know That I think about you all the time

So when you think about love, think about me I can give you more than you'll ever need Sooner or later every heart needs some company When you think about love, think about me When you think about love, think about me

We were strangers
Now I'm already wrapped around your finger
Oh whats a heart to do
'Cause it lingers
And the thought of you
Wantin' me as much as I want you

So when you think about love, think about me I can give you more than you'll ever need Sooner or later every heart needs some company When you think about love, think about me When you think about love, think about me

Makes me blue I'm not holding you tonight Cause only you can satisfy This heart of mine

So when you think about love, think about me I can give you more than you'll ever need Sooner or later every heart needs some company When you think about love, think about me When you think about love, think about me

So when you think about love, think about me I can give you more than you'll ever need Sooner or later every heart needs some company When you think about love, think about me When you think about love, think about me
