

# Dolly Parton, Too Lonely Too Long

(Dolly Parton)

No matter how you're tempted  
Don't say yes to me  
Don't make this night as smooth to lead me on  
It's just that I'm so lonely and I need someone  
I've been too lonely too long  
Oh please be strong enough to refuse me  
Before I let myself do something wrong  
For down inside I'm not that kind of woman  
I've been too lonely too long

Oh please don't take advantage of the situation  
For I'm afraid that I'm too weak to resist temptation  
When you're used to being loved  
It's hard to live alone  
I've been too lonely too long  
I've been too lonely too long
