

Dolly Parton, Wait Till I Get You Home

[with Mac Davis]

You never cease to amaze me you can still make me crazy
Baby you can turn me on with just your eyes
You're just so darn appealing you stir up sexy feelings
Every man in the room would love to try you on for size

Baby wait till I get you home wait till I get you alone
Wait till I get my hands on you wait till I get you home
Sweet baby wait till I get you home

Oh baby you still make me feel feelings that can take me
To places where I've never been before
Well honey I've got a feeling we'll make some shadows on the ceiling
Tonight by candlelight behind closed doors

Baby wait till I get you home...

Your loving gets better each time we're together
It's always exciting and new
Each time we discover we're still like young lovers
It's always been magic with you

Baby baby wait till I get you home...
Sweet darling wait till I get you home...
Sweet baby wait till I get you home
Sweet darling wait till I get you home
