

# Dolly Parton, You & Me, Her & Him

You and me and her and him must get together and see if maybe we can find a way  
To put an end to hurting one another  
Cause he don't know and she don't know how much we hurt each day  
It's not fair and you and I both know it to have to hide and love the way we do  
The time is now that we must get together her and him me and you

She and I had lost it long before I met you  
We tried and tried but all the love had gone  
And I guess respect is all that's kept me with him  
Cause there wasn't been no love there in so long  
It's not fair and you and I...  
Her and him me and you
