

Donna Summer, My Life

When I was young
I used to dream of going far
having my once, in a lifetime change
to prove I was a star.

A thousand times you stood
in the wings
dreaming it was me,
I heard the people going wild
but it was just my fantasy

Life is a dance
and baby we're just players
so stand up and smile
and don't be afraid

Chorus:

This is my night
this is my song
standing right here
out on the stage
is where I belong
this is my song
this is my night
standing right here
out on the stage
in the spotlight

I traveled the road
wherever the road would lead
I made mistakes but I
wouldn't quit
I made myself believe
dreams come true
for those who dream
so one day you can say
the music be the fruit of life
and let the music play.

Life is a dance
and baby we're just players
so stand up and smile
and don't be afraid

Chorus:

Bridge: (8x)

This is my life
This is my life
