Donna Summer, Walk On

Walk on
Keep on walking and don't look back
You gotta keep on down the track
The future's yours to shape and mold
The past is past beyond control
So walk on
Walk on
Baby walk on
Walk on
Walk on

You gotta struggle up them hills
To realize the downward thrill
When night confuses where you are
Then just look up at that guiding star
So walk on
Walk on
Baby walk on

Baby baby let me walk with you (walk on) Baby baby let me walk (walk on)

The wind may blow the sky may fall But if you're strong you'll go through it all And just as long as your aim is true There'll come a day your goal's in view So come on

Baby baby let me walk with you Baby baby let me walk

Keep on moving Keep on moving

And when you reach where you belong You'll find it's where you first started from And through it all you're still the same You swear it's them not you who's changed

So walk on walk on Weep on moving
Just keep on moving yeah
Better keep on moving yeah
