

Dope, Dream

Am I dreaming
Or am I just walking in my sleep
I don't believe in
Anything that you want me to be
But I believe in me

When everything is falling down
Pick it up pick it up

Take what tommrow brings and don't ask why
Sing what the people sing and swallow all the lies
We've only got the dreams so let's keep it alive
The dream is yours and mine

I'm still breathing
In and out the dream you suffocate
With every breath I take
The world is screaming
If I wake up I may not find the way
On my knees I pray

When everything is falling down
Pick it up pick it up

Take what tommrow brings and don't ask why
Sing what the people sing and swallow all the lies
We've only got the dreams so let's keep it alive
The dream is yours and mine
Keep dreaming
