

# Doro, I Dont Care

I thought you'd love me forever  
I thought nothing could change your mind  
as long as we were together  
through every war  
I could still survive  
you meant everything to me and my heart  
Now you leave me with  
nothing at all  
I know I'm falling apart  
its heaven with you only knowing  
its hell without you, are you going away  
to leave me here a broken soul  
in the cold and screaming dark  
its heaven wiht you, was I dreaming  
its hell without you, were you leaving me  
and all good things come to pass  
walking tall on broken glass  
from my heart  
heaven with you  
Standing here in the shadows  
all alone, feel it deep inside  
hanging on to forever  
with you here it would be so right  
now I find myself coming apart at the seams  
hand in hand with a memory on a road of shattered dreams  
Repeat chorus  
I can feel you when Im sleeping  
but I wake to find Im dreaming  
and I hope to god you need me  
the way that I need you  
Now you leave me with nothing at all  
I know Im falling apart  
Repeat chorus
