

Doro, Long Way Home

I'm just a wild, wild one - underneath
Looking back with no regrets - and no apologies
I don't like no-one pushing me
I wanna travel down the highway - forever free
I believe you got to follow your own heart
No matter where you come from, no matter who you are
Live it - like you want it to be
You got to live it - never give up your dreams
Live it - like you want it to be
You got to live it and love it and make it
Everything - you want it to be
You gonna find it's an ever changing world
So much uncertainty - so much to learn
You can't let them lead you down the road
You've got to keep an open mind - and walk it on your own
Got to spread your wings in the sky above
Got to take care of... the ones you love
Live it - like you want it to be
You got to live it - never give up your dreams
Live it - like you want it to be
You got to live it and love it and make it
Everything - you want it to be
You got to spread your wings in the sky above
Got to take care of... the ones you love
Live it - like you want it to be
You got to live it - never give up your dreams
Live it - like you want it to be
You got to live it and love it and make it
Everything - you want it to be - oh!
