

# Doro, Walking with the angels

Sometimes they wonder  
Why I am not afraid  
All this thunder  
And all this heavy rain  
And they wonder  
Yes, they wonder  
Yeah, they do  
Sometimes they wonder  
If I will ever break  
All these burdens  
And all this heavy pain  
And they wonder  
Yes, they wonder  
But I don't  
There is a power, not from this world  
I found a power, a higher power  
I'm walking with an angel (walking with an angel)  
I'm talking with an angel too  
I'm walking with the angels (walking with the angels)  
They pull me through the darkness too  
I've been travelling  
A dark and deadly road  
Sometimes so lonely  
But never real alone  
No wonder, I've been under  
The wings of a godly soul  
I tell you secrets  
That I found out for sure  
I wanna show you  
There's help and guidance too  
Oh don't wonder, no don't wonder  
I can prove that it's true  
There is a power, not from this world  
I found a power, a higher power  
I'm walking with an angel (walking with an angel)  
I'm talking with an angel too  
I'm walking with the angels (walking with the angels)  
And they're watching over me, it's true  
There is a power, not from this world  
I found a power, a higher power  
I'm walking with an angel (walking with an angel)  
I'm talking with an angel too  
I'm walking with the angels (walking with the angels)  
And they're watching over me and you  
I'm walking with the angels  
I'm walking with the angels
