

# Doro, You Gonna Break My Heart

Well you've watched the sun set on the seven seas  
dined in the company of killers and queens  
you think there isn't much that you haven't done  
you've tasted everything that can turn you on  
but there's an innocence in your eyes  
another magic that you haven't tried  
You ain 't lived till you're loved to death  
you aint lived till you're loved  
believe me baby there is so much left  
you ain't lived till you're loved to death  
When I'm close to you baby I can tell  
you've never been to heaven  
cause you're soared of bell  
you think you know love but it's all in vain  
you've never felt the passion if you feared the pain  
knocked on the door but you never walked in  
well let me take you places that you've never been  
You ain 't lived till you're loved to death  
you aint lived till you're loved  
believe me baby there is so much left  
you ain't lived till you're loved to death  
Oh there's a whole new world  
here inside my heart for you  
baby let me take you there  
You ain 't lived till you're loved to death  
you aint lived till you're loved  
believe me baby there is so much love  
you ain't lived till you're loved  
You ain 't lived till you're loved to death  
you aint lived till you're loved  
believe me baby there is so much left  
you ain't lived till you're loved to death  
Let me love you  
let me love you to death  
believe me baby there is so much love  
you ain't lived till you're loved to death
