

Dot Rotten, Overload ft. TMS

Inhale exhale, I'm tired of it
I don't wanna breathe
I just wanna leave
Or I'll be stuck here till my soul flies

Inhale exhale, I'm tired of it
I don't wanna breathe
What's the point in being here
I just wanna leave
Can you show me to the pain killer killer killer
I'll be searching for a pain killer killer killer
Can you show me to the pain killer killer killer
I been looking for a pain killer killer killer

Overload

Overload

They want us to do as we're told
Distract us from the truth so we can lose as they grow
I put my life on the line that's just the way we roll
Head's spinning, head's spinning, it's overload

You might see me behaving crazy
You might see me behaving rude
Sometimes I wonder to myself what's going on
Am I all on my own
Oh I've been feelin something's going on around us
But we just can't see it
Too many lights when the truth is needed
You been playing games
You are planning to destroy everything we have made
Everything we work hard for, you leave it in the grave
Truth is I don't wanna fly in the air
The world I'm in is collapsing why am I here
I need a pain killer and time to prepare
I swear

Inhale exhale, I'm tired of it
I don't wanna breathe
I just wanna leave
Or I'll be stuck here till my soul flies

Inhale exhale, I'm tired of it
I don't wanna breathe
What's the point in being here
I just wanna leave
Can you show me to the pain killer killer killer
I'll be searching for a pain killer killer killer
Can you show me to the pain killer killer killer
I been looking for a pain killer killer killer
Overload

Masters of the system
They make the decisions
We're programmed to obey
We're programmed to listen
The masses are the victims
They got us in this prison
So now my head's spinning head's spinning
It's a overload

They want us to do as we're told
Distract us from the truth so we can lose as they grow

I put my life on the line that's just the way we roll
Head's spinning, head's spinning, it's overload
