

Double You, What Did You Do

Remember all the love we shared
But you never thought
I was at your side

Remember all the love we shared
But you never thought
I was at your side

Remember all the love you gave
But you never saw
All my honesty

You were the ghost in me
Haunting my dreams
But I was at your side

What did you do
What did you do with my love

Oh Baby

You gave me the best you could
You gave me your heart
Like nobody else

Remember all the love we shared
But you never knew
I was at your side

Remember all the dreams we had
You took them away
And tore my dignity

Remember all the love you showed
But you never came
I was at your side
