

DoubleDrive, Even Out

Expression is by sometimes consequence
Little more than common sense again
I watch you all build up the fall
Of my betterment
With greener grass
But taller fence
Get us some confetti here
We had us a banner year

I see your garbage
Close to your common sense
When in doubt
You gotta throw the whole thing out
Even it out

Hold me in the balance
Hold your breath
Running from nothing
Scared to death
You say your controller's broken
Can do nothing at the moment
We balance out
Lower the scales and take the ride down

I see your garbage
Close to your common sense
When in doubt
You gotta throw the whole thing out
Even it out
