

Down Below, Down Below

Can you see me now
You're the reason why I'm bleeding
Yeah
Can you see me now
You were all I ever needed

And I know
I was a fool
I feel you behind the door
And now I am down
Baby I'm down
I am down below

Dive in my shadows now
More than it is good for me
Yeah
Dive in my shadows now
You were all I ever needed

I will never let you down
You will always wear my crown
Baby this is our song
Together we have gone all wrong
This is our melody
A disharmonic symphony
I will never let you down
You will always wear my crown

Can you see me now?
I'm just a shadow of myself
Can you feel me now?
'cause you were all I ever felt

I will never let you down
You will always wear my crown
Baby this is our song
Together we have gone all wrong
This is our melody
A disharmonic symphony
I will never let you down
You will always wear my crown
Baby this is our song
Together we have gone all wrong
This is our melody
A disharmonic symphony
I will never let you down
You will always wear my crown

I am down below
