

DQ, When in Tokyo

Ichi, ni, san, yon
Well, I just feel like going out tonight
Inspired by the neon lights
Its all right (my baby) its all right
Good night, sleep tight, dont let the bed bugs bite
Ill be back at the break of light
Its all right (my baby) its all right
Shibuya is calling out my name
Im destined for fame
And nothing will ever be the same
When in Tokyo
Its all about the dancing
Come on and disco down the show
Take it nice and slow
Until the sun is rising
Well turn the lights down low
The Boombox bass is pumping dynamite
Were flying at the speed of light
Its all right (my baby) its all right
Were in between where nothings black or white
It feels just like a friday night
Its all right (my baby) its all right
North to the south and left to right
All of Japan is burning bright
Its all right (my baby) its all right
The taste of sweet, bitter, sour, salty
Cant you see Im umami
Its all right (my baby) its all right
And I am standing on the top of the world
A wasabi girl
And Im shining diamonds and pearls
Chorus
Theres no other time or place in the whole world
That compares to this
When Im away my spirit stays
And theres one thing I miss
Its this
When in Tokyo
Its all about the dancing
Come on and disco down the show
Take it nice and slow
Until the sun is rising
Well make like the wind and blow
